NewYork:OxfordUniversityPress;Instituciones, actores y experiencias comparadas Buenos Aires, Biblos. The lex naturalis is, if one follows Davis's terminology, a theory of rational action inasmuch as it conceives humans as endowed not only with reason and freedom according to a divine plan, as well as with an innate potentiality to recognize and pursue certain ends in conformity with their nature, but also with the capacity to know, judge and achieve good both for themselves and for others, that is, as social beings.
