Stone D. London: Routledge. Weakened or re-engineered administrative sovereignty, an increased number of non-state global and regional governance actors, new policy tools and networked administrative architectures, alongside expanding pressures to solve global and regional collective action

problems requires increased disciplinary engagement with global policy and its transnational administration. Yet, small-scale aquaculture holds great potential and is part of the solution. Consider, too, differences in regulatory environments. The increasing outflow of money into the offshore world starves developing countries of government revenues, enables kleptocrats to hide their illicitly-acquired wealth, and allows global multinational companies to lawfully avoid paying hundreds of billions in taxes.

Two peaks are recorded during the year. Walker C. Trans-national does not simply signify inter-national; it refers to the organization of power beyond the state not between states and is, thus, an open and somewhat nondescript term Richter et al.
