InDr. Later, in the Bahama Islands there were makeshift facilities that accompanied expeditions and military campaigns—the Bahamas Historical Society Museum has a marble slab that may have been used as an operating table by early military surgeons, but it appears that the first hospital in the Bahamas was built in the eighteenth century and it was called The African Hospital. Detailsifother:. Gradually, technical improvements were made and despite the steady occurrence of serious and sometimes fatal injuries to patients, the procedure came to be widely utilized. Today, ENT specialists in the Bahamas limit the procedure predominantly to the removal of foreign bodies from the esophagus. The setting up and running of a cross-county out-of-hours gastrointestinal bleed service: a possible blueprint for the future.
