Main article: Cancer immunotherapy. People may become anxious or depressed post-diagnosis.

Chapter6.Onceacancerhasmetastasized,prognosisnormallybecomesmuchw this time, it is recommended that individuals at increased risk for breast cancer, particularly those who carry a BRCA mutation have annual mammograms beginning at age 25, with a clinical breast examination by a breast specialist, a yearly breast MRI with a clinical breast examination by a breast specialist, and a yearly clinical breast examination by a

gynecologist. The euphemism of "a long illness" to describe cancers leading to death is still commonly used in obituaries rather than naming the disease explicitly, reflecting an apparent stigma.
