P is called the antecedent ; and q is called the consequent. The burden of proof evidently lies on him; it is not for me to prove that no such beings exist before my non-belief is justified, but for him to prove that they do exist before my belief can be fairly claimed. This is due to a simple observation of the stars moving around the pole star due to the Earth spinning. All these things are so "natural" to us that we need to think of them, not as necessary, but as deliberately planned by a creative power, ere we can realise the monstrous absurdity of supposing them to be the outcome of "design".
